

Kōwhai

Bushland Park | House and Land Package

564 Cashmere Road | Price on Application

No. 5, No. 9, and No. 11 Kahika Lane

The native landscape of Bushland Park provides an intimate backdrop to 11 timeless low energy homes. These beautiful homes offer superior thermal comfort and indoor air quality and are targeting Passive House certification.

Situated off Cashmere Road and only 10 minutes from the CBD, Bushland Park offers access to the best of the Port

Hills and is zoned for popular schools including Cashmere High School.

Kōwhai's floor plan will suit a range of people and lifestyles, combining comfort with functionality and style. It is a cleverly designed three-bedroom home with open plan living areas, a separate laundry, two bathrooms and a guest toilet.

The sunny section with sheltered outdoor area encourages seamless indoor-outdoor living while natural materials are used generously throughout to create a warm and inviting home.

Developed by Ethos Homes their track record of excellence ensures a quality home for generations.

Passive House Certification:

Passive House certification is the sustainable choice across Europe and a rare find in New Zealand.

Passive House delivers on all aspects of occupant well-being while consuming very little energy. Homes are warm in winter and stay cool in summer, with a medium temperature of 20° year-round.

With over 30 years of evidence to support its use, Passive House is an independent standard with third party certification for quality assurance.

Rātā houses are on track for 'Passive House Plus' certification when built.

While every effort has been made to ensure this information is accurate the specifications, details and information (including size and layout) set out in this document may be subject to change. House area measured from external edge of walls. Room dimensions are measured from internal wall faces. Please contact us for more information.
